Song Information

Slower tempo songs usually require 6-7 seconds per picture. Faster paced songs typically require 5-6 seconds. Be sure to know what your song length is and how many pictures you can "fit" in a song.

Many times when pictures are choreographed to songs, there will be additional song time left on the track. Typically, the remainder of the song is faded out. In this case, please let us know how you would like us to end the song:

- Fade out the song Extend the length of some pictures

Personal Message (optional)

Personal Messages are a great way to share a poem or a message of thanks. Personal Messages can appear in many ways (rolling credits, appear/disappear, etc). Please indicate how you would like your personal message to be displayed.

Captions

Captions are normally used to help send a message about a picture. While great for identifying when, where, or why a picture was taken, they should be used sparingly.
